NOTES.

1. The underlying objective of the disciplinary system is to provide a safe playing environment for players. Any acts of foul play which can compromise player safety should be dealt with severely. For example, a 'king hit' punch on a player who has no chance to see the punch coming should be dealt with by a suspension at the top end of the scale.
2. To reflect WR's concerns about a player's status as a persistent offender, if a player appears for a second occasion in three (3) years, the first offence penalty may be doubled to reflect his attitude in becoming a persistent offender. For a third offence, it may be trebled.
3. For any greater number, a lengthy suspension should be imposed to reflect the player's apparent disregard for the rules of the game and safety.

4. The seriousness of the offence is reflected by the part of the body which is attacked e.g. a stomping on the head is more serious than on the back of an opponent (see WR Regulation 17.19.2 for all the relevant factors).
5. In addition, WR Regulation 17.19.4 and 17.19.5 lists various factors which can be considered to be aggravating or mitigating features which can bear upon the suspension to be imposed.
